

QANTAS DOMESTIC LOUNGE, MELBOURNE AIRPORT PROJECT SNAPSHOT

Qantas Domestic Lounge, Melair

APEC were awarded the Electrical, Audio Visual and Communication Package as a preferred contractor at the Qantas Domestic Lounge after having previously been involved in the refurbishment of the same area, 6 Years earlier.

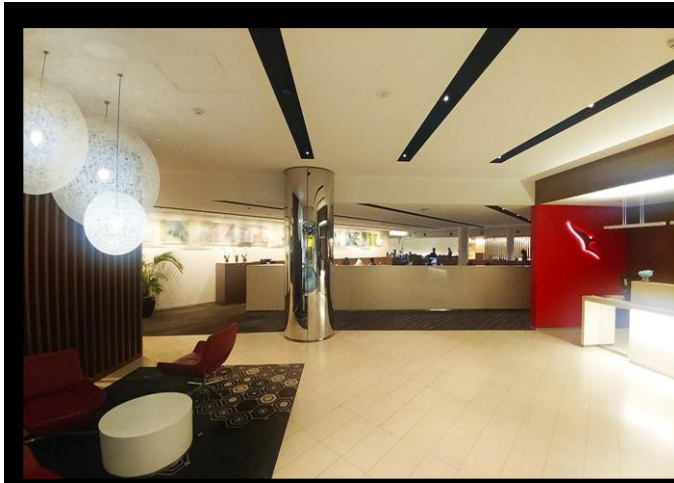

This space was constructed in stages in order for Qantas to continue to utilise the lounge for guests whilst refurbishment works were being completed. As such a large portion of these works were completed out of normal hours.

Managing a staged electrical supply arrangement whilst working closely with Melair staff to ensure electrical requirements were adhered to presented challenging circumstances that were successfully overcome by APEC on this project.

APEC were delighted to be shortlisted as a preferred contractor by Qantas which led to our ultimate engagement to complete this project in one of the nations premier airlines flagship customer spaces.
